## CAREER OBJECTIVE

A motivated Frontend Developer (React) with 1.5+ years' experience in building responsive, user-focused web interfaces. Seeking an opportunity to work as a Frontend Developer in a reputed organization, where I can contribute my skills and grow while aligning with the company's goals.

## WORK EXPERIENCE

**Organization Name:** Flight Expert (Website: [flightexpert.com](https://flightexpert.com))

**Designation:** Frontend Developer

2022 - 2024

- Maintain reusable components and style guides.
- Developed and maintained responsive, high-performance web applications using React.js, Next Js and modern frontend libraries.
- Worked with REST APIs to fetch, process, and display dynamic data in web applications.
- Followed agile practices, participated in code reviews, daily stand-ups and wrote clean, maintainable code.
- Collaborated closely with designers, backend developers, and QA to deliver features that align with project goals and timelines.
- Debugged and resolved cross-browser compatibility and performance issues, ensuring smooth live application performance.

## PERSONAL PROJECT

**Movie DB | [Link](#)**

- Developed a full-stack movie web app using Next.js, TMDB API, and MongoDB Atlas with server-side rendering and custom API routes.
- Implemented core features like movie comparison, play trailer, search, watchlist, and social sharing with meta tags, ensuring secure and dynamic user experience.
